TECHNICAL SKILLS

PROGRAMMING LANGUAGES

- Java
- Python
- C++

WEB DEVELOPMENT

- HTML
- CSS
- JavaScript
- Responsive Web Design

COMPUTER SCIENCE FUNDAMENTALS

- Data Structures
- Algorithms
- Object-Oriented Programming (OOP)

AI & COMPUTER VISION

- Machine Learning
- Deep Learning
- YOLO

EMBEDDED SYSTEMS

- Raspberry Pi
- Arduino Mega

TOOLS

- Visual Studio Code
- Git
- GitHub
- Canva
- Microsoft Office
- Google Workspace

PROFILE

Computer Engineering graduate with hands-on internship experience in web development, where I contributed to developing and maintaining responsive web applications while collaborating with the development team. Backed by academic projects in AI and embedded systems, I am eager to apply my technical skills and continue growing in software development.

EDUCATION

Bachelor of Science in Computer Engineering

STI College Las Piñas | 2022–2026

PROJECTS

PRC 2026 Philippine Robotics Cup Website

- Developed and maintained the official competition website using HTML, CSS, PHP, and MySQL.
- Implemented team registration, shop, ranking, gallery, and admin features.
- Integrated Google Sheets for data management and email notifications.
- Improved UI/UX and website performance.

Autonomous Lettuce Detection & Spraying Robot

- Developed an autonomous agricultural robot using YOLOv8 for lettuce detection and navigation.
- Integrated Raspberry Pi, Arduino Mega, GPS, and sensors for autonomous spraying.
- Implemented real-time control and precision spraying for efficient crop management.
- Combined computer vision and robotics to enhance smart farming solutions.

TECHNICAL EXPERIENCE

Web Developer Intern

March 2026 – April 2026

Creotec Philippines Inc.

- Developed and maintained web pages using HTML, CSS, and PHP while contributing to the Philippine Robotics Cup website by implementing new features and improving existing pages.
- Assisted in enhancing website UI/UX and overall user experience through updates to content, layout, and functionality.
- Collaborated with the development team to test, debug, and ensure the reliability and performance of website features.

CERTIFICATIONS

- AWS Academy Graduate – Cloud Foundation – Training Badge, 2025
- EC Council Cyber Security Certification, 2025
- Java Fundamentals – January 2023
- Java Fundamentals – June 2023
- Certificate of Completion (300 Hours On-the-Job Training) – Creotec Philippines Inc., April 21, 2026

SEMINARS AND TRAININGS

- IoT Conference Philippines, 2025
- Automation in Power Systems Webinar, 2025
- STI XPERIENCE Artificial Intelligence (AI) Technology Today, 2024
- STI XCITE IPv6, 2024
- STI XCITE Cyber Security Seminar, 2024

EXTRACURRICULAR ACTIVITIES

ESCpES – Engineering Student Council and Peer Engagement Society

Member | 2023 – Present

- Actively participated in events, seminars, and outreach programs that promote leadership, collaboration, and community engagement.
